pfm medical gmbh offers a broad range of FEATHER® products for the fields of autopsy, trimming and dissection.

Autopsy Blade Handle F-100

View

Application

Highly versatile due to easy change of the autopsy blades.

Benefits

- Simple blade change
- Autoclavable
- Easy to clean

Technical Data

- **Material:** special resin
- **Handle length:** 160 mm

Order Information

Autopsy Blade Handle F-100

Trimming Blade Handles

View

Application

The ideal trimming set together with the special trimming blades ensure the tissue samples are not deformed during dissection. The trimming blade handles are made from heat-resistant Wood-Plastic-Composite (WPC) and due to their ergonomic design, they are particularly easy to grip.

Benefits

- Available in three lengths
- Autoclavable
- Heat-resistant
- Particularly easy to grip thanks to ergonomic design and material
- High stability and strength, resistance
- Natural wood look, aesthetically designed

Technical Data

- **Material:** Wood-Plastic-Composite (WPC)
- **Blade length:** 80 mm, 130 mm and 260 mm

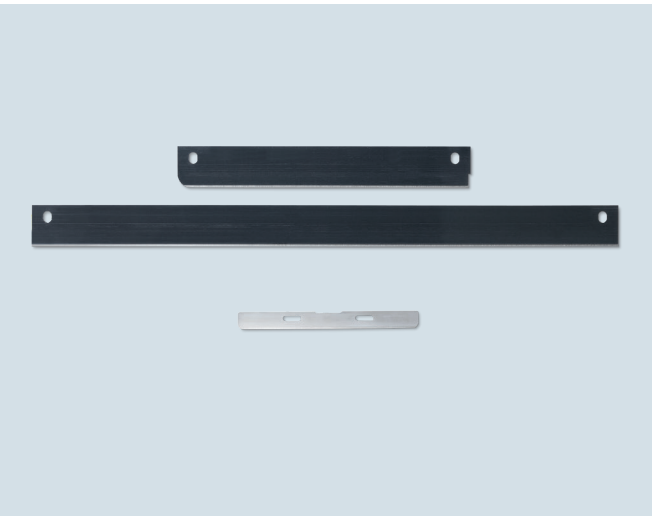
Order Information

Trimming Blade Handles

REF	Type	Blade length (mm)	Overall length (mm)	PU
205530002	F-130WP	130	260	1
205540002	F-260WP	260	390	1
205550002	F-80WP	80	217	1

Trimming Blades

View



Application

The trimming blades are special blades for cutting tissue samples without causing deformation.

Benefits

- Super sharp
- Trimming blade made from carbon steel

Technical Data

- **Material:** carbon steel; **Blade length:** 130 mm and 260 mm
- **Material:** stainless steel; **Blade length:** 80 mm

Order Information

Trimming Blades

REF	Material	Blade length (mm)	Height (mm)	PU
205500000	carbon steel	130	n/a	50
205500001	carbon steel	260	n/a	50
207500000	stainless steel	80	8	50

Safety Trimming Blade Handle F-1326WP

View

Application

The Safety Trimming Blade Handle F-1326WP in conjunction with the safety trimming blades allows fast and easy blade change thus providing users with increased safety and comfort in their daily laboratory work. The ergonomically designed Wood-Plastic-Handle is particularly easy to grip.

Benefits

- Fast and easy blade change
- Autoclavable
- Heat-resistant
- Easy to clean
- Particularly easy to grip thanks to ergonomic design and material
- High stability and strength, resistance
- Natural wood look, aesthetically designed

Technical Data

- **Material:** Wood-Plastic-Composite (WPC)
- **Handle length:** 150 mm
- Only for use with FEATHER® Safety Trimming Blades

Order Information

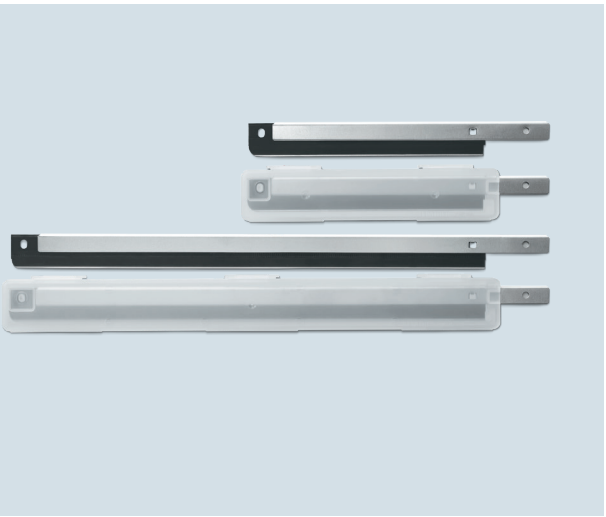
Safety Trimming Blades

View



Application

The safety trimming blades in conjunction with the Safety Trimming Blade Handle F-1326WP allows fast and easy blade change thus providing users with increased safety and comfort in their daily laboratory work. The individually wrapped blade holders prevent direct contact with the trimming blades thus protecting against injury and infection.

Benefits

- Fast and easy blade change
- Individually packed
- Blades with covers

Technical Data

- **Material:** carbon steel
- **Blade length:** 130 mm and 260 mm
- Only for use with FEATHER® Safety Trimming Blade Handle F-1326WP

Order Information
